Good to know before you book

What types of corporate events work well here?

Leadership offsites, planning sessions, trainings, workshops, presentations, team meetings, client sessions and small networking events.

What AV technology is included?

High-speed Wi-Fi, a large-screen TV with presentation capability and a professional-quality sound system are included. Please share device types, adapters and presentation requirements in advance.

Is technical production included?

Basic connection support is included at the start of the session. Dedicated technicians, livestream production, recording, microphones, conferencing platforms and specialty equipment are not included unless arranged separately.

Can we bring catering?

Yes. Catering is not included, so you may bring in the provider that works for your team. Workshop provides a selection of serving essentials, filtered water, coffee and hot water for tea.

Can organizers access the room early?

Early organizer or vendor access must be scheduled in advance. Additional access or meeting time is \$150 per hour and subject to availability.
