Capacity at a Glance

Our flexible space can be arranged according to the children's ages, party activities and final guest count.

Little Kids Parties

Toddlers through Age 8

Parties for children age 8 and younger are limited to a maximum of 26 children.

This allows us to provide appropriate children's seating while maintaining comfortable space for caregivers, food, activities and entertainment.

Big Kids Parties

Ages 9-13

Parties with more than 26 children may be possible for older children, depending on the party format, adult attendance and room layout.

- 27-32 children: Requires an approved expanded-party layout
- 33-40 children: Considered a large-format party and requires a custom proposal, additional staffing and prior approval
- Large parties are best suited for dancing, games and other activities that use a combination of limited seating and open floor space
- Adult seating will vary based on the number of children and selected layout

Overall Guest Limit

Workshop can never accommodate more than 40 children or 60 total guests, including all children and adults.

Final layouts must be approved by Workshop based on the children's ages, final headcount, activities, entertainment and vendor requirements.
